LEGAL REQUIREMENTS

HACCP

The company works and operates in accordance with the Community regulations contained in the Hygiene Package Reg. 852/2004 and 853/2004 and associated regulations. The company has adopted a system of Hazard analysis and critical control points (HACCP), in order to identify the critical phases for consumer safety and protection. The internal traceability system, according to Reg. 178/2002 and subsequent updates, ensures the traceability of all products.

TRACEABILITY

The traceability of the product is based on the batch number L YXXX (Y year XXX day Julian calendar), printed on primary and secondary packaging.

GMO

The product does not form part of the products covered by the regulation of GM food, as required by EC regulations n° 1830/2003 and 1829/2003, since it is considered as a product derived from a metabolic process that converts raw materials. The product does not contain GMO.

IONIZING RADIATION

The product is not treated with ionising radiation.

PACKAGING

All the materials in contact with the product shall respect legislative requirements.
