

COLLI PESARESI SANGIOVESE

D.O.C. Red

REGION

From 1800, Azienda Agraria Guerrieri is located in Marche region on the East Coast of Italy facing the Adriatic Sea. The vineyards are at 12 km from the sea at an altitude of 200m a.s.l. Our area is called "Metauro Valley" in honour of our historical Metauro river; the longest one in the Marche region, and also the one that crosses all the Valley.

CLIMATE

In the Marche region, located at "the heart of Italy" the climate is mild and harmonious, with important thermal excursions and constant wind. The valley's climate is influenced by the presence of the Adriatic Sea on the East, and by the presence of the Apennine mountains on the West.

SOIL

The vineyard is located on the East bank of the Metauro River. Its soil is composed of grayish calcareous mud, which turns into light blue colour, after just a few meters of depth. The vegetative soil is predominantly silty clay loam, with small carbonate nodules that are originated from water erosion, and from the transformation of inorganic vegetative matter into humus.

STORY OF THE WINE

This red wine represents the traditional version of our Sangiovese grapes. It originated from our desire to produce a wine that was able to stand out with respect to the other Sangiovese wines of Central Italy; focusing on the elegance of red fruits as an expression of our terroir.

AWARDS & LISTINGS

94 Pts – **Luca Maroni (VTG 2025)**
90 Pts – **Wine Enthusiast (VTG 2024)**
Bronze Medal - **2024 International Wine Challenge (VTG 2023)**
