The vineyards

Montepulciano grown partly in pergola
Abruzzese and partly in Guyot structure at
an altitude between 300 and 450 m a.s.l.

The winemaking

The grapes, after a careful selection, are de-
stemmed and crushed; the skins are left in
contact with the must and their indigenous
yeasts for 10/15 days at a constant
temperature of 25/28°C.

Ageing

Part in oak barrels and part in stainless
steel tanks for at least four months. Ageing
in bottle follows.

Tasting notes

Impenetrable ruby red color, the nose is
intense of red fruit and black cherry jam,
light notes of cocoa and toasted complete
its bouquet.

The palate is warm, fairly tannic, soft,
intense, with the typical almond finish.

Food pairings

Cured meats (ham, salami etc.), grilled
and baked meats, pasta dishes with very
elaborated sauces.
